

Commodity & Specialty Chemicals Supply

Leveraging CES's PureChem Services and Canadian Energy Services divisions, Acden CES provides a selection of proprietary products and best-in-class service to the oil and gas industry.

Here's how:

- Supply chain security – strategically located manufacturing and distribution hubs ensure reliable supply and timely delivery of products, while our decentralized approach allows us to adapt to specific regional needs and changing market demands.
- Our people – local area managers are empowered to make quick decisions with the goal of delivering the best products and services possible.

Commodity & Specialty Chemicals Supply

Acden CES is a partnership between Acden and CES Energy Solutions Corp. (CES) that offers commodity and specialty chemicals, drilling fluids and services. With a track record for success stretching back three decades, Acden provides diversified industrial services to companies that demand the highest performance, safety and productivity from all aspects of their business. CES Energy Solutions is a leading provider of technically advanced consumable chemical solutions throughout the life-cycle of the oil and gas industry.

We specialize in:

- Tailored solutions for all the challenges associated with production in oil and gas
- Technology-driven fluid systems and products that allow operators to drill deeper and more efficiently
- Chemicals that include:
 - corrosion inhibitors
 - demulsifiers
 - surfactants
 - H₂S scavengers
 - and many other custom chemical blends

We are also leaders in big data and analytics, our Enerlytx™ platform allows clients to gain insights into:

- drilling performance
- solids control
- fluid changes
- and more, through our customizable dashboards
